

△▽ INSPIRED BY THE FOUR △▽

ELEMENTS

For **25 years** now, Hanse has been setting the **trends** in series yacht construction worldwide. Today, we're breaking the rules once again with the launch of our four **brand-new** Hanse models, which are again top of their class. Inspired by the four elements **Fire, Water, Air and Earth**, our designers streamlined the hull and rigs, simplified the handling even further and created an interior beaming with **sunlight**, and whose spaciousness exudes a **luxurious loft feeling**. Never before has **elegance** been so **comfortable** and **convenient**. The virtually endless combination of woods, fabrics and layouts is likewise one of a kind – giving you the chance to make your Hanse as **unique** as your life. Each new Hanse is like no other. Discover the details at hanseyachts.com.
